Old Webmail

To Login, you will need to do the following:

- Open your web browser
- Go to http://mail.iris.arvixe.com
- Enter your user name, which is your email address
- Enter your password, which was reset recently; please contact me if you do not know it.
- Then click on mywebmail
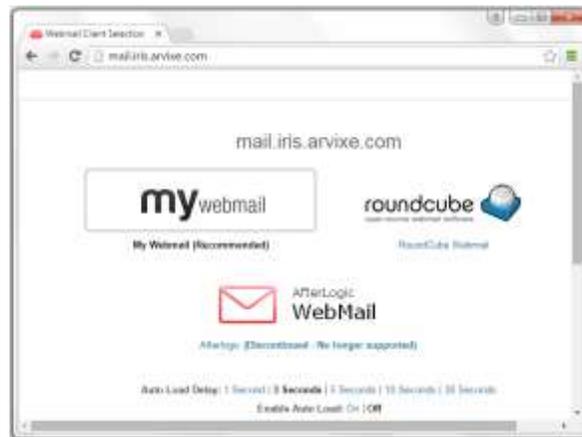

You'll be taken to a login screen.
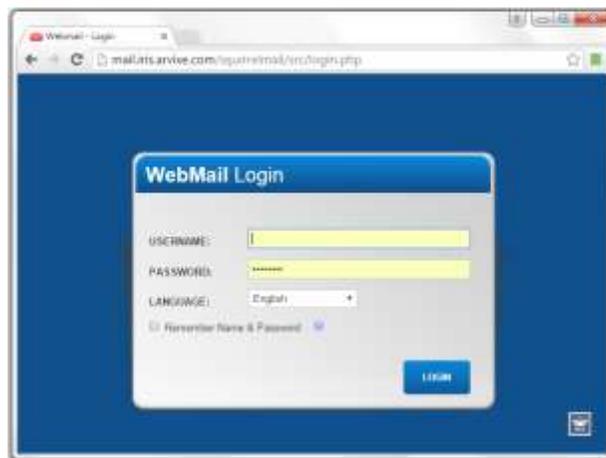

After logging in, you should be taken right to your Inbox. Make sure you have received all of these emails in Outlook. If not, you can forward these emails to a personal email account. Forwarding to your website email probably will not work. In a day or so, you could forward them from your personal account to your website email if you want to keep all of your emails together.

Once again, contact me if you have questions.
